 250,000 Articles a day  
 200 countries in 75 languages

### Weblogs

7 million Weblogs  
 10,000 of the most influential

### Broadcast

35 Broadcast Channels  
 Audio and Video  
 Advanced speech to text  
 recognition

### News Aggregation vs. Syndication?

For current awareness, news aggregation is far superior to traditional syndication. Why? Increasingly, critical business information appears first, and more often exclusively, on the open Internet. Because Moreover aggregates news already available on the Web, there are no hidden content access charges like those associated with syndicated news services. The result is a fixed, predictable cost structure that delivers a rapid return on investment.

### Become a Source
